LIQUOR IS POURED INTO CUMBERLAND

THOUSANDS OF DOLLARS WORTH OF BOOZE IS GIVEN TO THE FISHES.

MOVE UNDER NUISANCE ACT

Six Dray Loads of Assorted Wet Goods Confiscated and Poured Into River-Bottles Are All Opened.

-Nashville. Six huge dray loads of assorted liquors were poured into the Cumberland | policy. river by the receivers in the nuisance cases, acting under the direction of Aust & McGugin, special attorneys for prosecute the cases.

The liquor poured ranged in quality all the way from mean "bust-head" whisky and plain domestic beer up to absinthe and fine brandies and cordials. There were more than sixty arrels of bottled beer, several barrels of whisky and eight cases of absinthe, besides smaller quantities of other liquors. It was valued at several thousand dollars.

The liquors, which filled four storage rooms in the First National bank building, were hauled to the wharf and there the barrels were opened up, the bottles opened and the liquor allowed to run out into the river. Although a score of willing hands were busy opening the bottles, it required the greater part of an afternoon to complete the job of opening the huge stock. The bottles were gathered up and placed back in the barrels, to be sold to the junk men to help meet the expenses of the cases.

The work was under the direction of Receivers Littel Rust, Richard Dews, John Cate and E. J. Hamilton

Stork Loses Out.

In the monthly report for July by Dr. H. H. Shoulders, State Registrar of Vital Statistics, it is shown that in only four counties during that month did the deaths exceed the births. These countles were: Davidson, with 278 deaths to 257 births; Maury, with 66 deaths to 52 births; Rutherford, with 45 deaths to 44 births, and Shelby county, with 346 deaths to 305 births. In all the other counties there were more births than deaths, save in Van Buren county, where a tie game resulted between the Stork and the Grim Reaper, the score being 3 each.

Taking the state as a whole, the births almost doubled the deaths, there being 4.443 against 2.685. Much interesting data is given by Dr. Shoulders in the preface to his July report, which is as follows: "We herewith submit a report of the

Bureau of Vital Statistics for month of July.

"As will be noted, there were 2,685 death certificates and 4.443 birth certificates filed during the month of July, which is a greater number of births and a smaller number of deaths than occurred in June."

Good Roads Campaign.

An advance step was taken in the movement for good roads throughout the state when interested men from Nashville and other points met in the loggia of the Hermitage Hotel and formally perfected the Tennesse Highways Association by the election of W. E. Myers of Carthage, president; L. G. Boxwell of Nashville, secretary, and P. D. Houston of Nashville, treasurer. later and will be selected from various rganization is to be a branch of the National Highways Association. L. G. Boxwell presided over the meeting.

Tennessee is the eighteenth state of the Union to enter the National Highways Association. The state organization will be perfected by the organization of the ninety-six counties of Tennessee, a campaign for that purpose already being planned. Plans were also discussed this morning for an educational campaign to be held throughout the state.

To Meet in Bristol.

Preparations for the sixth annual convention of the Southern Appalachian Good Roads Association, to be held in Bristol from October 6 to 9, are now inprogress. Dr. Joseph Hyde Pratt of Chapel Hill, N. C., president of the association, has designated N. ReMine, secretary of the Bristol Board of Trade, as convention secretary, and the secretary is now mailing letters to Boards of Trade, Chambers of Commerce, mayors, governors, etc., to secure the appointment of delegates from all states embraced in the territory covered by the work of the association.

Concerning the effects of temperance upon the business interests of the city, he says: "During the years there have located in this city over twenty- new concerns representing 'various industries. It appears that these new concerns employ about two thousand persons, with annual pay rolls of over \$1,000,000, and have expended for suitable buildings to carry on their industries in this city over \$400,000

"We have it from some of the business men who have recently come to Cambridge that one of the principal things that attracted them to locate here with a large number of employes was the fact that Cambridge is well established as a no-license city."

DOCTORS DISAGREE.

Writing on "What Science Says About Alcohol" in a recent number of Munsey's Magazine, Mr. Burton J. Hendrick alludes to the differing methods employed by physicians and laboratory workers. "The latter," he says "care nothing for theories and 'inherited knowledge;' they submit everything to experimentation-to the test tube and microscope. The remarkable fact is," he continues, "that, though the doctors may disagree about alcohol, as about many other things, the scientists apparently never do. Practically all who have really experimented have rendered the verdict strongly against

it. Alcohol in their view is not a stimulant, it is not an 'appetizer,' or an aid to digestion, it is not a food in any real meaning of the word, it is not an inspiration and help to mental work and it does not increase muscular activity. In other words, cold-blooded modern science brands as untrue pracpoets, philosophers, convivialists and even physicians have made since the beginning of civilization."

The subject most universally discussed, aside from the weather, is that of temperance. In the newspaper world it is no longer the country weekly and the small city daily, but the great metropolitan papers, as well. In the smoking compartments of Pullman cars, at week-end parties, on the porch, in the family circle, among business men at their desks, everywhere, suppression of the liquor traffic is the livest question up for general discussion before the American public. The magazines, too, are devoting much space to the discussion. Story writers The vice presidents will be named are teaching the lesson of the value of abstinence and the worthlessness of points in the state. The Tennessee the man who drinks. It is no longer the lonesome fight of the preachers and the extremists; conservative common sense and consecrated patriotism have also taken up the cudgel against the business of legalizing the selling of destruction.—Alabama Citizen.

LIQUOR TRAFFIC AND NATION. The total amount of revenue received from the liquor traffic, including duties on imports, is less than

\$350,000,000 annually. The cost of the traffic to the nation \$5,000,000,000, or over \$14 for every revenue dollar received.

DANCIE SAUNDERS DEAD; LACY SURRENDERS

P. LACY, NEGRO, WHO ATTACKED WITH A SHOVEL, GIVES HIM-SELF UP.

Blacks Incarcerated at Covington. Victim of Quarrel Succumbs. Saunders, Injured, Pursued the Assailant.

Covington.-Newton Saunders, wellknown citizen of Mason, Tenn., who was attacked by Peter Lacey, negro, died from the effects of wounds inflicted by the negro, who used a shovel as a weapon.

The negro, who made his escape after the trouble, surrendered to Sheriff B. E. White at Covington. His wife was also placed under arrest. Feeling, which ran high against the negroes, has to some extent subsided and little fear of violence is now entertained.

The negro struck Saunders with a shovel while the white man was attempting to persuade the negro's wife, who had been employed as his cook, to return to her employment. Saunders' skull was fractured at the base of the brain. After his injury he walked to Stanton, Tenn., thence back to Keeling, and then to Covington, in search of his assailant.

MRS. SHELTON IS BURIED.

Noted Woman Laid to Rest Somerville.

Somerville.-In the peace and quiet of the city's cemetery there was laid to rest one of Fayette county's old and honored inhabitants. Mrs. Mary Cooper Shelton was 88 years old and had lived the greater part of her life in Somerville

In ante-bellum days she and her husbard, who died many years ago, were prominent figures in the social life of the county. She had seen her children and her children's children bear their part in the drama of life. Two daughters, Mrs. Robert Montgomery of Jackson, Tenn., at whose house she died. and Mrs. Ernest Williams of Favette county, together with many grandchildren, survive her.

SHERIFF PREVENTS LYNCHING.

Negro Suspected of Criminal Assault

on Woman. Nashville.-Prompt action by Sheriff Longhurst of Davidson County prevented the lynching of a negro suspected of criminal assault on a 27year-old white woman. The negro was seized by a posse of citizens and taken to the woman's home. She failed to positively identify him, but declared that if he was the guilty man she wanted to stay and see him killed. The mob was preparing to kill the negro when a large force of deputy sheriffs arrived from Nashville and took charge of the prisoner. The negro was later released for lack of identification.

TOBACCO ASSOCIATION ACTS.

FAMOUS BELL STOPS TOLLING

Disaster That Seems Omen of Ill Luck to Brave Little Nation of Belglum.

A night or two before the German nvasion called the whole of Beigium to arms the biggest of the Ghent belfry bells, named Roelandt, after the architect who built the town hall, was tolling as usual when it was suddenly reduced to dumbness and was found to have sustained a crack about twenty-two inches long and one-third of an inch wide. It is supposed that and a weakness all through the excessive heat the metal caused by female had expanded and become unequal to trouble, and I took | the violent beating of the new hammers used since the restoration of

the belfry two years ago. The bell is one of the most celebrat-Roelandt; when I toll then there is a am now feeling fine. It is hung is only equaled in celebrity by that of Bruges, whose fame was sung by Longfellow. The belfry of Ghent is 375 feet in height to the top of the spire, and contains 44 bells, The one which is now, unfortunately, cracked was originally made in 1314, but was recast in 1659. It bore in Flemish the inscription: "My name is Roelandt; when I toll then there is a fire; when I peal there is a victory in Flanders."

In 1789 the Austrians fired at the belfry to prevent the citizens ringing the alarm. The cannon ball hit one of the bells and made a hole in it, but the tone is said to have remained uninjured.

In a discussion of the divorce evil Judge Matthew L. Hendricks said at a a dinner in Cleveland: The truth about most divorces is that both parties are to blame. One

party is never all good and the other never all bad-both are to blame-and that fact, of course, makes philosophizing and generalization difficult. "For the average pair of divorces are like the two pretty summer girls

at Atlantic City. These two pretty summer girls were quarreling. "'Well, anyhow,' said the first girl, 'I don't sit round till all hours with

the boys playing poker.' "The second girl glanced at her companion's transparent blouse and skirt, the very latest transparent blouse and skirt from Paris, the kind of blouse and skirt which are more popular than ever among the young and beautiful, despite the furious protests of 40,000 elderly clubwomen. Then, still staring at that blouse and skirt, the second girl entered this quiet defense: "'You show only your hand in poker."

The Goodyear Tire & Rubber Co. announce "No war prices on Goodyear Tires." Mr. F. A. Sieberling, president of the Company, thus explains their unique position.

"We advanced Goodyear prices, as others did theirs, when the rubber panic came. Almost in a day crude rubber rose in New York from 55 cents per pound to much over a dollar. "The New York supply was too

small to consider. We cabled our London people to buy up the pick of the rubber there. By acting quickly and paying cash they obtained 1,500,-000 pounds of the finest rubber.

"That big supply of rubber is now nearly all on the way to the Goodyear factory in Akron. It constitutes the best of the London supply.

"We are using the same grade o rubber and the same amount of it as we always have used in these tires "We are running our factory with three shifts of men, twenty-four hours a day, So long as we remain in this fortunate position on rubber, we shall supply tire users at before-war prices to the limit of our capacity."

To prove that a public nuisance has been committed is one of the most difficult things in modern legal practice. It is therefore gratifying to note that a plaintiff who set up the plea that a nuisance is perpetrated in causing noise by banging milk cans, unloading trucks containing the empty cans, discharging ice through a chute into a building from the sidewalk, emitting steam through windows and doors to the sidewalk, and allowing drivers of teams to shout loudly in the night has won his case before Chief Justice Russell of Brooklyn.
